# Ovid Search Box

The search from “Your Search, Your Way” panel is a basic search. Click on “Search.”

**Note:** The basic search only searches Rocky Mountain University Full Text Journals.

To include Journals@Ovid, click on “Change.” The “Select Resource Box” will pop up. Select “All Resources” and then “Run Search.”

# Searching in Ovid

Like EBSCO, there are many ways to search Ovid. Three are:

- Basic Search
- Multi-Field Search
- Find Citation

Notice Ovid's organizational schema. "Search History" is on top. Then the search options are followed by the search box and underneath it are the "Limits." The "Results" are listed last. Scroll down to see them all.

Click here for a list of journal titles and coverage.

The screenshot shows the Ovid search interface with several orange arrows pointing to specific features:

- Search Journals:** Points to the 'Journals' tab in the top navigation bar.
- Search History:** Points to the 'Search History (1)' section, which lists a search for 'bipolar' with 8077 results.
- Search box:** Points to the search input field in the 'Basic Search' section.
- Search Options:** Points to the 'Limits' section, which includes checkboxes for 'Daily Update', 'Local Holdings', 'Review Articles', 'Ovid Full Text Available', 'PsycARTICLES', 'Articles with Abstracts', and 'Original Articles'. It also includes a 'Publication Year' dropdown and 'Additional Limits' and 'Edit Limits' buttons.

The 'Results Tools' section at the bottom shows a list of search results, including a citation for a study on schizophrenia and bipolar disorder.

# Basic Search in Ovid

When using the “Basic Search”, think of it as a “natural language.” You can type your search terms as a question.

# Multi-Field Search in Ovid

The Multi-Field Search is similar to the Advanced Search in EBSCO. Type your search terms and select the field where you want those terms to appear. Abstract is usually a good one—not as exclusive as “Title” but more exclusive than “All Fields.” Click on Search.

You can “And”, “Or”, or “Not” your terms. Review Module 1 (Boolean logic) if you have questions about the use of these connectors.

# Multi-Field Search in Ovid

Search results show in the “Search History” box. Here we have 3,128 results.

If you scroll down, you will see the first 25 results. You can check out the results or add additional terms to the “Search History.”

The screenshot displays the Ovid search interface. At the top, the Ovid logo and navigation tabs (Search, Journals, Multimedia, My Workspace) are visible. The 'Search History' section shows a single search entry for 'occupational Therapy.ab.' with 3,128 results. Below this, the 'Basic Search' section is active, showing search terms 'interprofessional education' and 'Rocky Mountain University Full Text Journals'. The 'Results Tools' section on the left shows 'View By' options (Text, Multimedia) and 'Search Information' (You searched: occupational Therapy.ab.). The main results area displays the first result, an update on patient characteristics at the Kooyong Low Vision Clinic, with author details and a link to the full text.

# Multi-Field Search in Ovid

There are two search results in “Search History.”

To combine the two searches, check the boxes on the left and use “Combine with:” to select “And” or “OR.”

**Note:** “And” is more restrictive and will narrow your search.

The screenshot displays the Ovid search interface. At the top, there are tabs for Search, Journals, Multimedia, and My Workspace. Below these is the Search History section, which shows two searches: 1. occupational Therapy.ab. (3128 results) and 2. interprofessional education.ab. (373 results). Both are marked as Advanced. An orange arrow points to the 'Combine with' dropdown menu, which is currently set to 'AND'. Below the history section, there are buttons for Save, Remove, and Deduplicate. The Multi-Field Search section is also visible, showing 2 Resources selected: Journals@Ovid and Rocky Mountain University Full Text Journals. The search results section at the bottom shows a list of results, including 'Health Systems Science Curricula in Undergraduate Medical Education: Identifying and Defining a Potential Curricular Framework'.

# Limits in Ovid

Results are now down to 12. Using “Limits” will give even more specific results. Click on “Limits” and then “Additional Limits.” You can limit by Publication types, Ranking, Year of Publication, etc. Select your limits and then click on “Limit A Search” (bottom right of screen).

The screenshot shows the Ovid database interface. At the top, there's a navigation bar with 'Search', 'Journals', 'Multimedia', and 'My Workspace'. Below this, a 'Hints' section provides instructions on how to use limits. The main section is titled 'Limit A Search' and contains a table with three columns: 'Select', '#', and 'Searches'. The table lists three search options: 'occupational Therapy ab.' (3128 results), 'interprofessional education ab.' (373 results), and '1 and 2' (12 results). The '12' result is circled in orange. Below the table, there's a 'Limits' section with various filters. A large orange arrow points to the 'Publication Types' filter, which is expanded to show options like 'Advertisements', 'Announcements', 'Book or Media Reviews', 'Corrections', and 'Editorials'. Another large orange arrow points to the 'Star Ranking' filter, which is expanded to show options like 'Five Stars (0)', 'Four Stars (0)', 'Three Stars (0)', and 'Two Stars (0)'. At the bottom right, there's a 'Limit A Search' button.

# Finding Full-text in Ovid

Full-text is indicated several ways in Ovid. Look for a PDF symbol or the words “Full Text.” This example indicates RMUoHP has this title in print in our collection.

The screenshot displays the Ovid database interface. At the top, the Ovid logo and navigation tabs (Search, Journals, Multimedia, My Workspace) are visible. The 'Search History' section shows three searches: 'occupational Therapy.ab.' (3128 results), 'interprofessional education.ab.' (373 results), and '1 and 2' (12 results). Below this, the 'Basic Search' section shows '2 Resources selected' and 'Journals@Ovid, Rocky Mountain University Full Text Journals'. The search criteria are displayed as 'AND' and 'AND' with empty input fields. The search results are shown in a table with columns: #, Searches, Results, Type, Actions, and Annotations. The first result is 'Learning to Work Together: Strategies for Integrating Interprofessional Collaborative Practice Into MSOT Curriculum' by Prast, Jean OTD, MSOT, OTR/L; Frederick, Andrea DHA, MSN, RN; Herliche-Pretzer, Ellen EdD, MA, OTR/L; Lachter, Liat Gafni MS, OTR/L. The result is from 'Journals@Ovid' and 'American Journal of Occupational Therapy, 69(Supplement\_1) Supplement 1:69115100411, July 2015. [Health Services Research and Education: Poster]'. The AN is 00000448-201506001-00114. The result is marked as 'RMUoHP owns print, vol. 55, 2001 - present' and 'Abstract'. A large orange arrow points to the 'Full Text' link in the 'Full Text' column. The 'Full Text' link is circled in orange. The 'Full Text' link is located in the 'Full Text' column of the search results table.

# Find a Citation in OVID

Click on the article title to see the abstract and the full bibliographic information if you need to request it through Interlibrary Loan.

The screenshot displays the OVID Results Tools interface. On the left, the 'Results Tools' sidebar includes an 'Options' gear icon, a 'View By' section with 'Text (1 Results)' and 'Multimedia (0 Results)', and a 'Search Information' section showing the search terms: 'Myers\$' [Author Surname] and 'Occupational therapy in health care\$' [Journal Name]. Below this, the search terms used are listed: care\$, health, in, myers\$, and occupational.

The main results area shows a single result, '1. Teaching interprofessional collaboration: using online education across institutions.' by Myers CT; O'Brien SP. The citation is from 'All Ovid MEDLINE(R)' and 'Occupational Therapy in Health Care. 29(2):178-85, 2015 Apr. [Journal Article. Research Support, U.S. Gov't, Non-P.H.S.]' with a UI number of 25821890. The authors' full names are listed as Myers, Christine Teeters; O'Brien, Shirley Peganoff. A link to the abstract is provided. To the right of the citation, there are links for 'Abstract Reference' and 'Complete Reference', and a 'Find Citing Articles' button. An orange arrow points to the article title.

At the bottom of the results area, there are links for '+ My Projects' and '+ Annotate'. The interface also includes a 'Clear' button and a 'View: Title | Citation | Abstract' dropdown menu, along with a '25 Per Page' dropdown menu.

# Full-text or Interlibrary Loan

If you only search “Rocky Mountain University Full Text Journals,” all results will be full-text. If you also search “Journals@Ovid,” many will be abstract only. If it isn’t available in full-text, click on “Document Delivery” on the right side of the screen. Fill out the form with your name and email address and click on order. The request will go to our Interlibrary Loan department, and we will fill it within 3-5 business days.
